

# Fiddler on the Roof

The magic of the universal appeal of the musical "Fiddler on the Roof" comes from its themes of family, friends, and "traditions". Regardless of our own religious background, we all have traditions and on occasion feel strongly enough to fight to maintain them. Because of the pioneer heritage which many of us share, it is easy to empathize with a people being driven from their home because of their religious beliefs.

The appeal of "Fiddler" is still evident today as yet another revival production Broadway has been mounted, which recently won the Tony award for "best revival on Broadway". May you enjoy your visit back to the little village of Anatevka and those traditions that so many have come to love countless times over.
